I move to authorize staff to pay Efficient Communication Solution's invoice number 21960 in the amount of \$9,358.40.

BACKGROUND / SUMMARY INFORMATION

On April 5, 2016, City Council awarded Efficient Communication Solutions the jail and evidence security system project in the amount of 45,544.35.

Work began on April 22, 2016 and concluded on May 31, 2016. Attached is the project time tracking provided by Efficient Communication Solutions for your review.

Due to some unforeseen events, the work took longer than proposed and therefore, Efficient Communication Solutions is requesting an additional payment to cover the additional hours worked.

The additional time that was required once the contractor began working on the system is as follows:

1. Pelco/Software issues relating to the cameras which required troubleshooting with a third party technician.
2. Upgrading the City's server software and hardware to handle the increased load.
3. Upgrading switch gear at the Police Department to handle the increased load.
4. Access to jail facility delayed work to be done due to the nature of their work.

The improved camera system has been completed and is working well.

Bill No. C/A 1.d
Date: August 24, 2016
Subject: Purchase Authorization-Jail Van
Replacement

FROM: Cathy Rosen, Public Works Director

INITIALED AS APPROVED FOR SUBMITTAL TO THE COUNCIL BY:

- Bob Severns, Mayor
- Doug Merriman, City Administrator
- Patricia Soule, Finance Director
- Nikki Esparza, City Attorney, as to form

RECOMMENDED ACTION

A motion authorizing staff to purchase one (1) Ford Transit Low Roof Full-Size Cargo Van off of State Contract number 03613 in the amount of \$28,506.73 and;

A motion authorization staff to purchase one (1) Prisoner Transport Insert with installation from Systems for Public Safety Inc. in the amount of \$29,455.00.

BACKGROUND / SUMMARY INFORMATION

The 2015-2016 biennial budgets does not include the replacement of the jail van that is used by the Police Department, however due to many safety concerns for both the officers and the inmates, staff is proposing to replace the van early.

Regardless of the purpose, transporting a prisoner can be a potentially dangerous assignment for police or correction officers and adherence to proper safety protocols are obviously critical. While a majority of prisoner transports are accomplished without incident prisoners have escaped killing or injuring an officer, injured themselves or been killed, and harmed or killed innocent citizens.

Police and corrections officers perform prisoner transport thousands of times daily across the nation for a variety of purposes. As previously mentioned, a majority of these transports occur without incident, but due to the unpredictable nature of the transport, anything may occur and officers and supervisors should be prepared to reduce the risks when performing the duty. The old adage that desperate people will do desperate things.

Staff has performed a mini-risk management assessment of our current 2002 Chevrolet jail van (75,521 miles).

These are the safety issues and concerns staff would like to eliminate.

1. Upholstered seating is a biohazard.
2. Separation between officers and inmates is inadequate.
3. No separation between inmate and inmate.
4. Target due to current striping-unmarked is recommended.
5. Not properly lighted.
6. No steps to load and unload-potential injury to officers when lifting inmates in and to inmates when being lifted in.
7. Radio system requires enhancement for additional communication and support.

Staff has researched and determined that a transport insert would provide the City with the best replacement solution and ensures that our current and future needs are met. The prisoner transport insert will be able to be inserted in to a transport van that will also fit into our existing sally port. When the transport van needs replacing in the future, the insert can be removed and installed into a new transport van. The prisoner transport insert is available through our police outfitter vendor Systems for Public Safety Inc. They are also the vendor that outfitted our SUV patrol cars. Their knowledge and expertise in this field is highly recommended and they have proven to the City that they can save us money.

The Ford transit low roof full size cargo van we are proposing to purchase is off of State Contract number 03613. This purchase does not require a formal bid, however by purchasing from the State Contracts, the City saves costs by allowing the State to perform the bidding process to get a competitive price. The vendor for the van is Columbia Ford out of Longview.

Funding to replace the jail van will be coming from the Equipment Rental Replacement Fund. Staff is proposing to combine the existing \$26,912.13 in the jail van line item with the replacement funds in the amount of \$32,213.46, from the two Honda motorcycles we surplussed in July of this year. Combining these funds will not only cover the cost, but it will also allow staff to decrease the fleet by two and save money at the same time by eliminating repair and maintenance costs.

Bill No. 2.a
Date: August 24, 2016
Subject: 10-inch Transmission Main
Bridge Hanger Replacement -
Award of Contract

FROM: Cathy Rosen, Public Works Director and Joe Stowell, City Engineer

INITIALED AS APPROVED FOR SUBMITTAL TO THE COUNCIL BY:

- Bob Severns, Mayor
- Doug Merriman, City Administrator
- Patricia Soule, Finance Director
- Nikki Esparza, City Attorney, as to form

RECOMMENDED ACTION

The purpose of this agenda bill is to seek City Council approval to award a construction contract for replacement of the hangers used to attach the 10-Inch Transmission Main to the Deception and Canoe Pass Bridges to Bridge Masters, Inc.

BACKGROUND / SUMMARY INFORMATION

The majority of the water supply for the City Water Utility is piped from the Anacortes Water Treatment Plant to Oak Harbor. Two water transmission mains convey the water across the Deception and Canoe Pass Bridges, an older 10-inch steel pipeline and a newer 16-inch steel pipeline. Both pipelines are attached to the bridges by multiple hanger attachments.

During adoption of the Water System Plan in 2014, an Oak Harbor resident provided photographs that indicated some of the bridge hangers for the 10-inch main may be rusting through. Shortly thereafter, in March 2015, the City contracted with Gray & Osborne to perform an inspection of the water mains attached to the bridge. The inspection was coordinated with a scheduled bi-annual inspection of the bridge performed by WSDOT. Upon completion of the inspection, Gray & Osborne recommended replacing many of the hangers. The only efficient way of performing this task is to replace all of the hangers.

On December 1, 2015, City Council awarded a design contract to Gray & Osborne to prepare a design and bid documents for the replacement hangers.

Upon completion of the design, City Council authorized soliciting construction bids for installing the new hanger system. The project was advertised in the Whidbey News-Times, Seattle Daily Journal of Commerce and on the Builder's Exchange of Washington on-line plan center. The bid opening was held on July 29, 2016 and two bids were received.

Bidder	Total Bid Price
Bridge Masters, Inc.	\$685,617.59
Combined Construction, Inc.	\$989,170.00
Engineer's Estimate	\$675,929.21

Although there were only two bids received there were 13 contractors registered on the bidders list for the project indicating significant interest in the project and that bidding was competitive. Staff reviewed the documentation provided by Bridge Masters, Inc., checked references and found them to be a responsible and responsive bidder for this project. As bidding is deemed competitive, the bid price is close to the Engineer's Estimate and Bridge Masters, Inc. meets the responsible bidder criteria, it is recommended that the contract be awarded to Bridge Masters, Inc.

Installation of the new hanger system is scheduled to begin in September 2016. It will be necessary to stage construction equipment and materials in the southbound lane of the bridges in order to perform the hanger replacement work. This will require closing the southbound lane and west sidewalk during working hours. In order to minimize the disruption to traffic over the bridges, the work will be performed at night Monday through Thursday. Traffic will be controlled by flaggers alternating the direction of travel in the open lane. Staff has been consulting with WSDOT regarding traffic control and there is an approved traffic control plan for the project. It is expected to take approximately 6 weeks to complete the project.

Staff began a public outreach effort last month to inform the traveling public and local stake holder organizations of the traffic impacts that this project will impose. Stake holders include WSDOT, Island County, NAS Whidbey Island, Skagit County, Deception Pass State Park and all local emergency services providers. Stakeholders were directly emailed and provided project and contact information. The outreach effort will continue by employing the City web page, press releases, and additional direct email.

Article 22 DRUG TESTING [\[MOVE TO ADDENDUM D\]](#)

22.1 General Rule – The employer and the Association jointly recognize the need for a drug free workplace and the appropriate use of drug testing. Tests are permitted when probable cause of unlawful drug use exists.

22.2 Testing Mechanisms – The following testing mechanism shall be used for any drug test performed on member of the Association:

22.2.1 Screening Test – Any screening test shall be performed using the Immunoassay (IA) method.

22.2.2 Positive Results – Any positive results on the initial screening test shall be confirmed through the use of Gas Chromatography/Mass Spectrometry (GC/MS).

22.3 Procedures to be Used When the Sample is Given – The testing procedure shall be used whenever an employee is required to give a urine sample.

22.3.1 Listing of Drugs Taken – Prior to testing, the employee will be requested to list all drugs currently being used by the employee on a form to be supplied by the testing facility.

22.3.2 Sampling – A urine sample will be taken of the employee. The test shall be given in such a manner as to protect the authenticity and reliability of the sample and the privacy of the individual.

22.3.3 Tests – The sample will first be tested using the screening procedure set forth in Section 22.2.1. If the sample tests are positive for any prohibited drug, the confirmatory test specified in Section 21.2.2 will be employed.

22.3.4 Procedure After Positive Results – If the confirmatory test is positive for the presence of an illegal drug, the employee will be notified of the positive result, and will be provided with copies of all documents pertinent to the test sent to or

from the employer by the laboratory. The employee will then have the option of having the untested sample submitted to NIDA Certified lab of the employee's own choosing, to be tested at the employee's cost. If the retest results in a negative, the employer will reimburse the employee for all costs. The employer and employee will be given a copy of the results.

- 22.3.5 Documentation – Each step in collecting and processing of urine specimens shall be documented to establish procedural integrity and a chain of evidence.
- 22.3.6 Right of Access – The employer and any employee who test positive shall be given access to all written documentation available from the testing laboratory which verifies the accuracy of the equipment used in the testing process, the chain of custody of the specimen and the accuracy rate of the laboratory.
- 22.4 Limitation or Action “First Offense” – Any action taken by the employer for a “first offense” shall be rehabilitative in nature (i.e., counseling referral, treatment.), except when the employee is involved in criminal activity.
- 22.5 Second Offense – Second or more offenses by an employee shall be subject disciplinary action, up to and including dismissal.
- 22.6 Informing Employees about Drug and Alcohol Testing – All employees shall be fully informed of the Employer's drug and alcohol testing policy. Employees will be provided with information concerning the impact of the use of alcohol and drugs on job performance. In addition, the Employer shall inform the employees on how the tests are conducted, what the test can determine and the consequence of testing positive for drug use. All newly hired employees will be provided with this information on their initial date of hire. No employee shall be tested before this information is provided to him/her. Employees who voluntarily come forward and ask for assistance to deal with the drug or alcohol problem shall not be disciplined by the Employer for doing so. No disciplinary action will be taken against an employee unless he/she refuses the opportunity for rehabilitation, fails to complete a rehabilitation program successfully, or again tests positive for drugs after completing an appropriate program.
- 22.7 Employee Testing – Employees shall not be subjected to random medical testing involving urine or blood analysis or other similar or related tests for the purpose of discovering possible drug or alcohol abuse.—If, however, objective evidence exists establishing probable cause to believe an employee's work performance is impaired due to drug or alcohol abuse, the Employer will require the employee to undergo a medical test consistent with the conditions as set forth in the Policy.
- 22.7.1 In the event an employee is involved in an accident with serious injury requiring off-site medical treatment, or shooting incident, the employee may be ordered to submit to drug testing where surrounding circumstances provide an articulate suspicion that the employee is impaired.

22.7.2 “For Cause” (also known as “Reasonable Cause”) is defined as work-related performance, behaviors and actions that a reasonable and prudent person would believe constitute a potential hazard, either to oneself or others which could indicate that an employee may be under the influence of an illegal drug, or may be abusing a prescription or over the counter (OTC) drug, or alcohol.

22.8 Sample Collection – The collection and testing of the samples shall be performed only by a laboratory and by a physician or health care professional qualified and authorized to administer and determine the meaning of any test results. The laboratory performing the test shall be one that is certified by the National Institute of Drug Abuse (NIDA). The laboratory chosen must be agreed to between the Association and the Employer. The laboratory used shall also be one whose procedures are periodically tested by NIDA where they analyze unknown samples sent to an independent party. The results of the employee tests shall be made available to the Medical Review Physician.

Collection of blood or urine samples shall be conducted in a manner which provides the highest degree of security for the sample and freedom from adulteration. Recognized strict chain of custody procedures must be followed for all samples as set by NIDA. The Association and the Employer agree that security of the biological urine and blood samples is absolutely necessary; therefore, the Employer agrees that if the security of sample is compromised in any way, any positive test shall be invalid and may not be used for any purpose.

Blood or urine sample will be submitted as per NIDA Standards. Employees have the right for Association or legal counsel representatives, whichever is more readily accessible, to be present during the submission of the sample. Employees shall not be witnessed while submitting a urine specimen. Prior to submitting a urine or blood sample, the employee will be required to sign a consent and release form (as attached to this Policy).

A portion of the original sample will be separated by the lab in all cases for an independent analysis in the event of a positive test result. All samples must be stored in a scientific acceptable preserved manner as established by NIDA. All positive confirmed samples and related paperwork must be retained by the laboratory for at least twelve (12) months or for the duration of any grievance disciplinary action or legal proceedings, whichever is longer. At the conclusion of this period, the paperwork and specimen shall be destroyed. Tests shall be conducted in a manner as to ensure that an employee’s legal drug use and diet does not affect the test results.

22.9 Drug Testing – The laboratory shall test for only the substances and within the limits as follows for the initials and confirmation test as provided within NIDA standards. The initial test shall use an immunoassay which meets the requirements of the Food and Drug Administration for commercial distribution. The following initial cutoff levels shall be used when screening specimens to determine whether they are negative for drugs or classes of drugs.

- 22.15 Conflict with other Laws – This Article is in no way intended to supersede or waive any constitutional or other rights that the employee may be entitled to, or legal rights and obligations that the Employer may have, under Federal, State or local statutes.
